Smart Bed

COLLECTION

The industry’s smartest bed:

A good fit for every room.

- 7 height position options to maximize storage and flexibility
- Tool-less assembly reduces time and maintenance costs
- Steel channel inserts screwed into place for the strongest bond
- 4” of solid post above and below channel inserts
- Easily converts from a standard bed to lofted or bunked
- Available in a variety of widths and lengths to fit all needs

Many different styles, one Smart Bed.

Looking to dress up your beds? Savoy offers a variety of bed end styles to choose from. All styles of ends are interchangeable within the Smart Bed Collection and can even be mixed and matched. Two tone finishes are also available at no additional charge!

Bed decks come standard with a hook plate end which fits into the post and hook over the heavy-duty steel integrated pins within the channel.

The maximum height on the Savoy Smart Bed complies with 16 CFR Part 1213, limiting the height of the mattress foundation to less than 30”H while still providing 7 different heights.

Center drilled bunking holes receive metal sleeves standard. Combining with 4” steel bunking pins provides maximum stability when bunking or lofting.

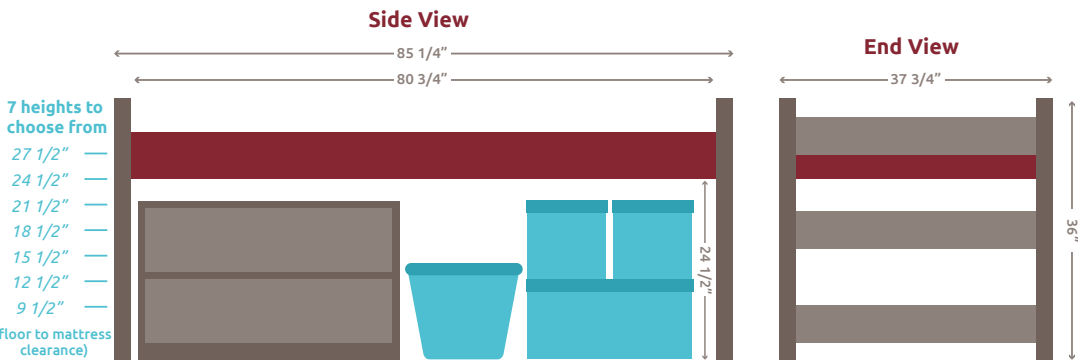

High or Low, Bunking or Lofting:

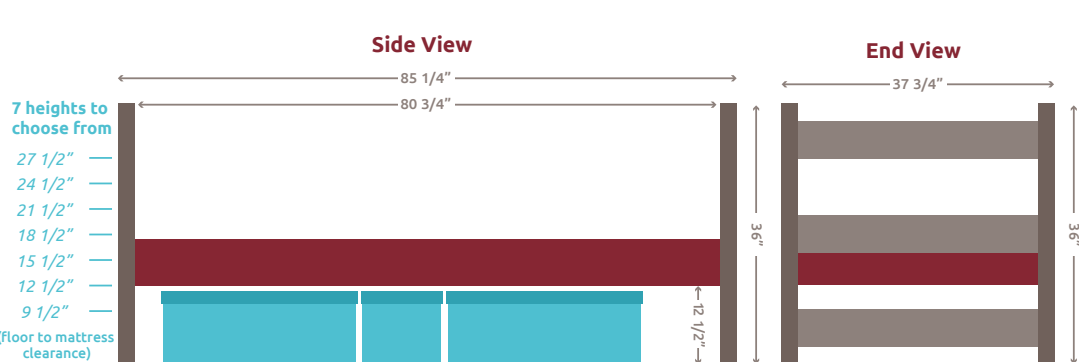

Savoy’s Smart Bed System allows for ultimate flexibility.

The Savoy Smart Bed is flexible enough to allow for an array of configurations and layout options to maximize space and storage. Below is just a sample of the arrangements the collection has to offer.

Lofted and Bunked Bed Ends are also available in 60"H

- Savoy offers the same great features of the Smart Bed System in a 60"H version.
- Bed ends are 60"H with posts made of 1 piece of Solid wood (non-glued up).
- Standard with one full channel and one half channel
- Two full channels are available for even more flexibility.
- A great option when ceiling height is limited or if you're looking for less parts to manage.
- All come with a full safety kit, standard.
